ERIN VILLAGE GRAVITY SEWER

Contract: 2022-04W

Starting on July 10th, construction of the sanitary gravity sewer construction along Main Street in Erin Village will commence. The construction work will extend along Main Street between the Elora-Cataract Trail and Dianne Road, and along Water Street from Main Street to Hillview Avenue. The sewer installation will utilize microtunneling, a trenchless pipe installation method. As part of this process, microtunneling shafts will be installed at specific locations along Main Street, as indicated on the map provided on the following page.

Prior to shaft installation, utility relocations will be required at certain shaft locations to accommodate the sewer installation. This will involve relocating cables for Bell telecommunications, street lighting, and traffic signals. Once the utility relocations are completed, the installation of the microtunneling shafts will proceed sequentially.

To ensure the safety of workers, road users, and residents, concrete barriers will be in place around each shaft location. Two-way traffic flow will be maintained on Main Street, and road jogs will be implemented where necessary to accommodate the shaft construction.

Lane or road closures may be required on certain local roads to facilitate utility relocation and/or shaft installation, as illustrated in the map of the work area. During this period, properties on the affected local roads can be accessed via Daniel Street or Lion's Park Avenue from Main Street. Access to local homes, businesses, and emergency services will be maintained at all times.

Construction Start: July 10, 2023
Anticipated Completion: September 2024

**Timeline is subject to change.*

WHAT TO EXPECT DURING CONSTRUCTION

- You may experience increased truck traffic, dirt on roads, dust and noise. The Town, along with the Contactor, will make every effort to minimize these impacts to the community.
- The Town will not be responsible for damage to any privately owned items on Town or County property.

	Work Hours: Work will take place from 7:00 a.m. to 7:00 p.m., Monday to Friday. Work after hours or on weekends may be required during the course of construction.
	Open for Business: Local businesses will be open throughout construction. All are welcome! Businesses with any construction-related concerns are advised to contact the Town.

We appreciate your understanding and patience

Town of Erin

NOTICE OF ROAD CLOSURE

**Culvert 10 Replacement
17th Sideroad
Contract No.: 300053088.1000**

The Town of Erin hereby notifies and advises all local residents that Culvert 10 located on 17th Sideroad, approximately 1.4 km east of Trafalgar Road will be:

Closed for Replacement beginning Wednesday, July 12, 2023

Culvert 10 is required to be replaced due to public safety concerns. At present, the Culvert Replacement is expected to be completed by November 2023, however there is a possibility the construction may take longer based on uncertainties in the weather. Local access will be maintained at all times for residents, and businesses from either the west or the east, however, through access will not be permitted during construction. There will be no access to 8th Line north from 17th sideroad. A map illustrating the project location and closure section is attached, for reference.

All agencies, such as, but not limited to; Emergency Services, Student Transportation Services, Waste Collection and Postal Service will all be notified of the road closure. Every effort will be made to ensure there is minimal or no disruption to the services they provide. Road closure notification signs will be installed and maintained throughout the project.

Your patience and cooperation during the works are greatly appreciated. Should you have any questions or concerns, please do not hesitate to contact the below individuals:
